

Dr. Marousek Praises Mitchell Memoir

Hi –

This is a message for George Brandsberg from Dr. Melvin Marousek in Belle Fourche, and me, his daughter Linda. We discovered *The Deadly Snow*, courtesy Wayne Gilbert, Dr. Gilbert's son, at the Tri-State Museum in Belle over the 4th of July, and I think we bought all the copies they had.

Dr. Marousek (who turned 94 yesterday) thinks the book is a heroic effort to show the wrongdoing by the government in the Mitchells situation, and he is very appreciative of the clear, unbiased yet persuasive writing style. This book has brought us things to think about, valuable memories, and opportunity for my dad to reflect on his life and work.

Thank you.

Linda Marousek
